David Bronner is Cosmic Engagement Officer (CEO) of Dr. Bronner’s, the top-selling brand of natural soaps in North America and producer of a range of organic body care and food products. He is a grandson of company founder, Emanuel Bronner, and a fifth-generation soapmaker. Under David and his brother Michael’s leadership, the brand has grown from $4 million in 1998 to over $111 million in annual revenue in 2017.

David and Michael established Dr. Bronner’s as a sustainable leader in the natural products industry by becoming one of the first body care brands to formulate with hemp seed oil in 1999 and to certify its soaps, lotions, balms, and other personal care products under the USDA National Organic Program in 2003. Both actions resulted in high-profile litigation with government agencies, DEA and USDA respectively, that Dr. Bronner’s ultimately won, cementing Dr. Bronner’s activist orientation in the natural products marketplace. Over the years, David and Dr. Bronner’s have been key leaders in fights for GMO labeling, industrial hemp farming in the U.S., high-bar organic and fair trade standards, cannabis reform, and animal welfare, and fair labor practices to advance sustainable and ecological alternatives to industrial agriculture.

Dr. Bronner’s partners with certified Fair Trade projects to source all major ingredients, including olive oil from Palestine and Israel, coconut oil from Sri Lanka, peppermint oil from India, and sustainable palm oil from Ghana. Dr. Bronner’s is committed to certifying its Organic Virgin Coconut Oil and all soap products and their main ingredients including coconut, olive, palm kernel and mint oils (95% of the brand’s agricultural volume by weight) to the new Regenerative Organic Certified standard in 2018. Furthermore, Dr. Bronner’s is a founding partner in the Climate Collaborative, which leverages the power of the Natural Products Industry to compel action on climate change.

In addition to his support of advocacy for regenerative organic agriculture, David directs Dr. Bronner’s resources to support animal advocacy, wage equality, and drug policy reform. One of his passions is the responsible integration of cannabis and psychedelic medicine into American and global culture and he is a board member of the Multi-Disciplinary Association of Psychedelic Studies. His activism embodies the company’s mission — which encompasses a commitment to making socially and environmentally responsible products of the highest quality, and to dedicating profits to help make a better world.

David was born in Los Angeles, California in 1973 and earned an undergraduate degree in biology from Harvard University. He is a dedicated vegan and enjoys surfing and dancing late into the night. He currently lives in Encinitas, California.

The company has donated over $2 million since 2014 to organizations working to reduce the suffering of farmed animals, protect wildlife, and transition to healthier and more sustainable food systems.

- **Drug Policy Reform:** Dr. Bronner’s works with organizations and campaigns across the U.S. to alleviate the worst harms of prohibition and create safe legal access to cannabis and psychedelics for patients and responsible adults. Dr. Bronner’s also continues to play a key role in working towards the re-commercialization of industrial hemp farming in the U.S.
